Restriction Requirement

The Examiner is requiring restriction under 35 U.S.C. §121 to one of the following inventions:

- I. Claims 1-6, drawn to a method of representing polyketide structure;
- II. Claims 7-12, drawn to a database wherein polyketides are represented by a string of symbols;
- III. Claim 13, drawn to a database wherein polyketides are represented by linearized representation; and
- IV. Claim 14-17, drawn to gene design.

The Examiner has stated the inventions are distinct from each other for the reasons set forth in the Office Action. Applicant hereby elects Group IV, Claims 14-17, without traverse.

Applicant would like to point out that Group II is believed to be Claims 7-12 not 7-14 as stated in the Office Action. If Applicant's understanding is incorrect, Applicant requests clarification from the Examiner.

Applicant expressly reserves his/her right under 35 U.S.C. § 121 to file a divisional application directed to the nonelected subject matter during the pendency of this application, or an application claiming priority from this application.

Applicant requests examination of the elected subject matter on the merits.
